Did you know that  
the Axel Paulsen  
first created the  
Axel for a Special  
Figure competition?

Everything in skating has  
some connection to a Figure  
pattern. Flying Figures started  
when a skater questioned the  
possibility of whether a 3-turn  
could become a Flying 3 or  
Three Jump in the air, land,  
and continue gliding back  
to the center.
